

OverDrive®

for Kobo and e-Readers

Integrated Kobo

Newer Kobo e-readers (Kobo Nia, Forma, Aura ONE, Aura H2O Edition 2, Aura Edition 2, Clara HD) have OverDrive built into the device, so you can directly borrow and download ebooks. To begin downloading, tap **More**, **Settings**, and **OverDrive**.

When accessing OverDrive for the first time, you'll need to sign in. Please ensure your Kobo is connected to Wi-Fi.

1. Select **Get Started**.
2. Sign in to OverDrive (note, do not select Create Account).
3. Type **Greater Victoria Public Library** in the search box and select our library when it appears (you can choose any GVPL branch).
4. Enter your GVPL library card number (no spaces) and PIN/password (your PIN/password is usually the last 4 digits in your phone number).
5. Now, you're all set to explore OverDrive on your Kobo. Tap **Browse** or **Search** to look for available titles.

You can also use your desktop/laptop Internet browser to access OverDrive at gvpl.overdrive.com. Sign in with your library card and PIN/password and explore GVPL's OverDrive collection.

Titles borrowed via the browser will appear on your Kobo under **My Books** once you tap **Sync**  (at the top of your Kobo home screen).

Happy Reading!
